

ICAO

UNITING AVIATION

ICAO Asia/Pacific SAR Task Force Bangkok, Thailand, 6-10 July 2015

GADSS

GLOBAL AERONAUTICAL DISTRESS and SAFETY SYSTEM

SEARCH AND RESCUE ASPECTS

Scott Constable

ICAO Adhoc Working Group SAR Member

Topics

- **Background**
- **Areas of Improvement**
- **Brief description of the concept**
- **Standards development**
- **Implementation Plan**
- **Summary**

GADSS History

March, 2014 Malaysia Airlines Flight MH370 disappeared and remains missing

12-13 May 2014 **Multi-disciplinary** meeting with States, Industry, Chairs and co-chairs of several panels, and related specialists

Attendees: 207 participants from

- 44 Member States
- 19 International Organizations
- 5 Industry representatives
- 8 Panel chairs

Outcomes:

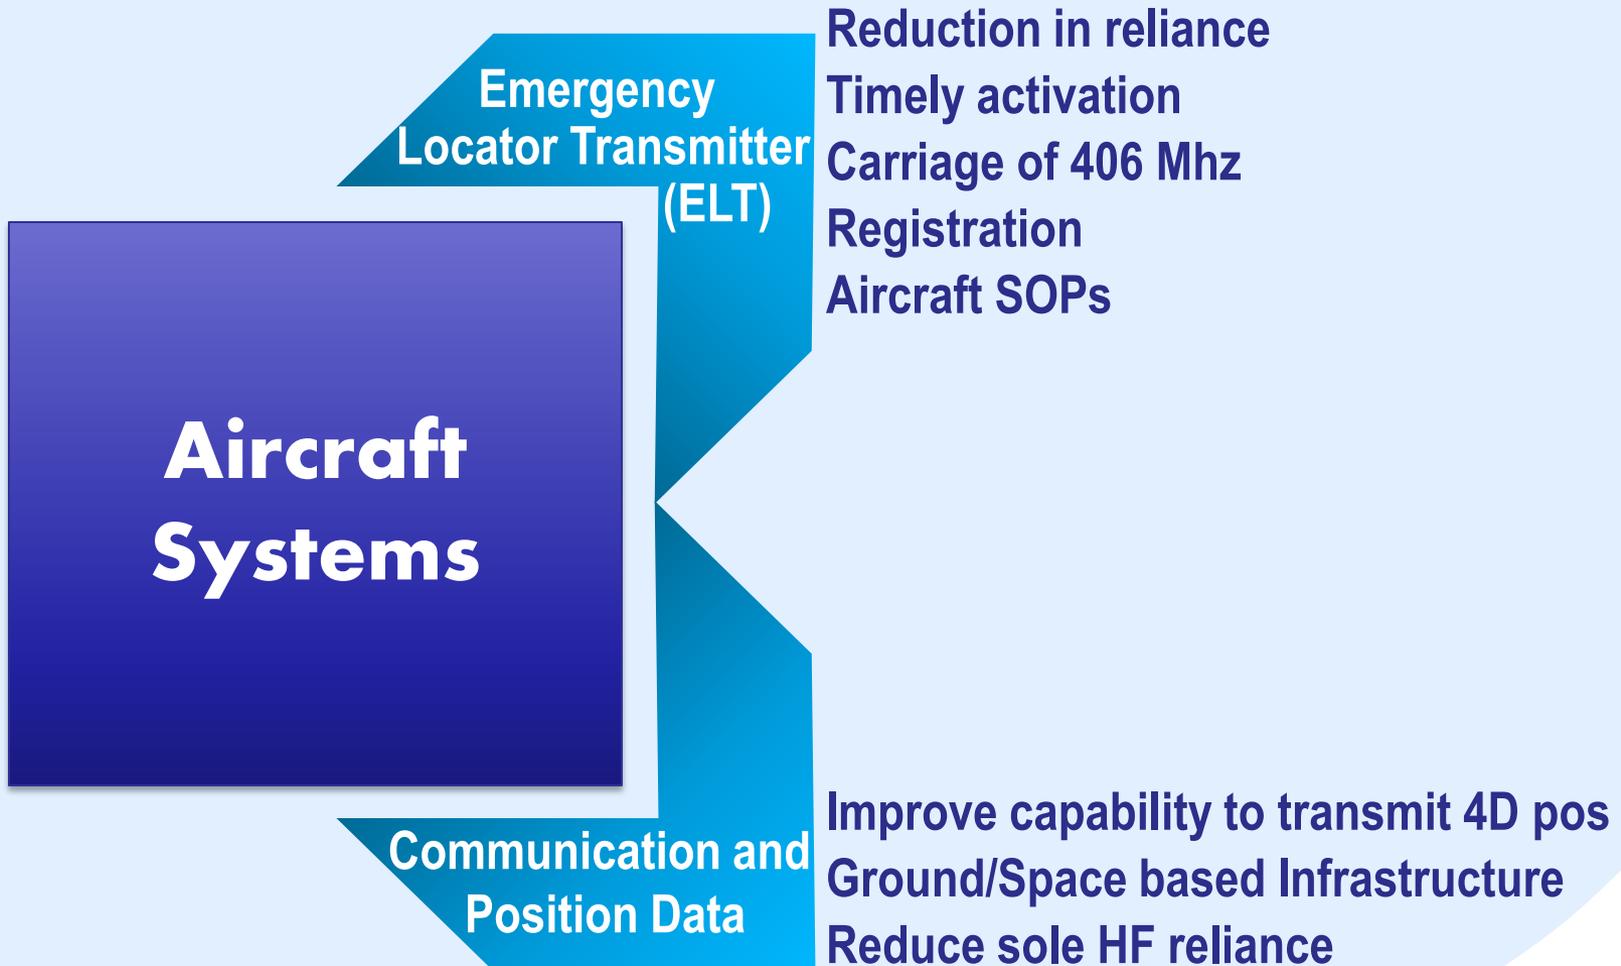

- *Consensus that **aviation's near-term priority is to track airline flights, no matter the location or destination***
- Industry to initiate **global tracking on a voluntary basis**, and establish an Aircraft Tracking Task Force (ATTF) to provide recommendations on best practices
- Establish an ICAO Ad-Hoc Working Group
 - Concept of Operations, incorporating outcomes of the IATA ATTF
 - Present ConOps to the HLSC 2015

Improvement Areas in Current Operating Environment

- **Current systems and processes**
- **4 areas identified for potential improvement**
 - Aircraft Systems
 - ATS
 - SAR system
 - Information Management

Improvements

Improvements

Improvements

Improvements

GADSS Key Components

Aircraft Tracking

Normal Operations

- Possible Subset of ATS Surveillance
- Used for Airline Operational Functions
- Controllable by Flight Crew
- multiple solutions

Aircraft Tracking

Abnormal Operations

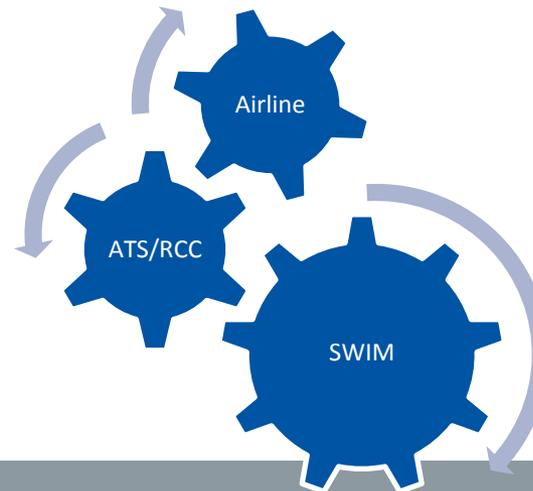

- Triggered by abnormal events
- Provides flight location data at least once per minute
- Controllable by flight crew
- multiple solutions

Autonomous Distress Tracking (ADT)

- A Distress Signal
- Auto Triggered by very specific events
- May be manually activated
- Can not be isolated

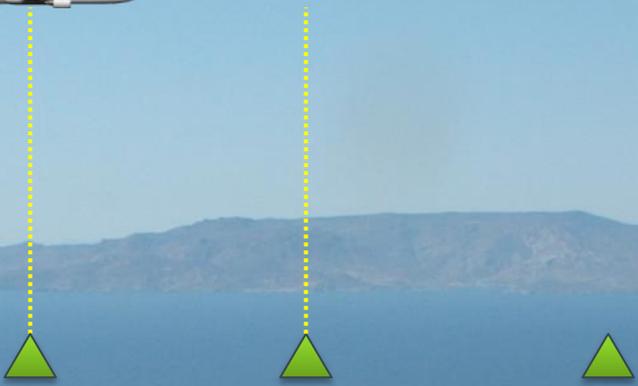

Flight Data Recovery

- **ADFR**
 - Automatically deployed
 - Floatable
 - Contains ELT to aid location
- **Alternate Solution**
 - Performance Based
 - Provides a minimum CVR and FDR dataset
 - Operation Approval Required

NO TRACKING

60 minute ATC reporting environment

Incident at 1 minute

Elapsed Time
from Incident: **89** min

EMERGENCY PHASE

RESCUE COORDINATION CENTER

NORMAL TRACKING

60 minute ATC reporting environment

AOC tries to establish contact

Incident at 1 minute

Elapsed Time from Incident: **44** min

Elapsed Time from Incident: **89** min

CURRENT

EMERGENCY PHASE

GADSS CONCEPT

RESCUE COORDINATION CENTER

DISTRESS TRACKING

TRIGGER

- Automatic
- Manual
- Ground

AUTONOMOUS

6 NM

Retrieval of CVR/DFR data

Trigger Examples:

- ⊙ unusual attitudes
- ⊙ unusual speed conditions
- ⊙ loss of power on all engines
- ⊙ ground proximity warnings

**Distress Tracking Concept
GADSS CONCEPT**

Some of the Major Outcomes during the HLSC 2015

- **Global Tracking**

- Member States endorsed the **GADSS Concept of Operations**
- Plans for adoption of a new **15 minute aircraft tracking standard** was also endorsed
 - **Performance-based**, allowing airlines the choice of several available and planned technologies and procedures
 - Proposal was sent to Member States on 25 February
 - Expected to be adopted by ICAO Council this fall
 - **Applicability date of 2016**
- ICAO is working with industry on an **implementation initiative**
 - To assist States, ANSPs, and airlines in the implementation of the standard and respond to abnormal flight behavior in an **integrated and multidisciplinary manner**

Upcoming Normal Tracking SARPs

Performance-based Standards and recommended practices for normal flight tracking

- No change to ATC procedures i.e. no change to SAR alerting
- Establish operator responsibility to track aircraft
- Not technology-specific – using existing technology
- Establish communication protocol between Operator , ATC and RCC
- Targeted area is Oceanic where ATC gets position information with interval more than every 15 min
- Aeroplanes with a take-off mass in excess of 27,000 kg and more than 19 seats

Timelines

- **January 2015**
 - Preliminary review by ICAO ANC
- **February 2015**
 - State Letter
- **November 2015**
 - Adopted
- **November 2016**
 - Applicable

Autonomous Distress Tracking SARPS

Performance-based Standards and recommended practices for distress flight tracking

- Not technology-specific
- Location of an accident site within 6 NM
- Activated
 - Automatically based on flight behavior
 - Manually from the air
 - Manually from the ground
- Power and position information autonomous from other a/c systems
- Applies to new built aeroplanes from 2021
- Incentive for early adoption as an alternative to second ELT

Timelines

- **January 2015**
 - Preliminary review by ICAO ANC
- **May 2015**
 - State Letter
- **March 2016**
 - Adopted
- **January 2021**
 - Applicable *(if adopted)*

Retrieval of Flight Data SARPs

Prescriptive Standards and Recommended practices for ADFR with a performance-based alternative for data retrieval

- ADFR prescriptive baseline
 - Recommendation for new aeroplanes from 2019
 - Applies to new aeroplane types from 2021
- Performance-based alternative
 - Not technology-specific
 - Optional for all aeroplanes from 2016
 - Incentive for early adoption as an alternative to ADFR

Timelines

- **January 2015**
 - Preliminary review by ICAO ANC
- **May 2015**
 - State Letter
- **March 2016**
 - Adopted
- **November 2016**
 - Applicable
- **November 2019**
 - Applicable
- **January 2021**
 - Applicable

Procedures and Information Management

- **Procedures will need to be revised**
- **Action / re-action may not need to be the same as current procedures**
- **Tracking and contacts information availability**
 - SWIM/Information Repository
- **Performance-based provisions**
 - Not technology specific
 - Procedures need to be in place by 2021

Implementation Plan

Chapter 5:

Concept Steps Implementation Plan

Aircraft Tracking

	Task	Block	Lead	Due Date	Status	Notes
Aircraft tracking	AT.01 - Resolve ADS-C tracking initiation issues linked to FPL correlation.	Block 0	CP	Nov-14	Complete	In Annex 10 proposal from OPLINKP
	AT.02 - Assess and identify possible means of compliance.	Block 0	ATTF	Sep-14	Complete	
	AT.03 - Develop and implement basic provisions for Aircraft tracking.	Block 0	ICAO	Nov-16	In Progress	Proposed SARPS published in State Letter AN 11/1.1.29-15/12 issued 25 February 2015
	AT.04 - Develop and implement revised provisions for aircraft tracking based on operational experience.	Block 1	FLTOPSP	Nov-18	Not Started	Pending completion of AT.03 and industry experience
	AT.05 - Assess extending applicability to other aircraft operations.	Block 2	FLTOPSP	Nov-22	Not Started	Pending Completion of AT.04

ADT

	Task	Block	Lead	Due Date	Status	Notes
ADT	ADT.01 - Develop and implement performance based Standards for Autonomous Distress Tracking.	Block 0	FLTOPSP-FLIREC WG	Mar-16	In Progress	Proposed SARPS published in State Letter AN 11/1.1.29-15/15 issued 15 May 2015
	ADT.02 - Assess and identify possible means of compliance.	Block 0	ICAO / INDUSTRY	Mar-16	In Progress	
	ADT.03 - Specification for flight event detection and triggering criteria.	Block 0	EUROCAE	Feb-16	In Progress	
	ADT.04 - Specification for new generation ELTs	Block 0	EUROCAE/ RTCA	April-17	In Progress	
	ADT.05 - Assess issue of non-carriage and/or non-registration of 406 ELTs and taken appropriate measures.	Block 0	ICAO	Nov-15	In Progress	PIRGS and COSPAS/SARSAT to provide information
	ADT.06 - Rationalisation of existing ELT SARPs.	Block 1	FLTOPSP-FLIREC WG		Late	Existing jobcard addresses this issue
	ADT.07 - Assess extending applicability to other aircraft operations.	Block 2	FLTOPSP-FLIREC WG	Nov-18	Not Started	
	ADT.08 – Specifications for ADT	Block 1	EUROCAE/ RTCA	Mar-18	Not Started	Requires development of MOPS for ADT

Flight Data Recovery

	Task	Block	Lead	Due Date	Status	Notes
Flight Data Recovery	ADFR.01 - Develop and implement performance based standards for automatic deployable flight recorders.	Block 0	FLTOPSP-FLIREC WG	Mar-16	In Progress	Proposed SARPS published in State Letter AN 11/1.1.29-15/YY issued XX May 2015
	ADFR.02 - Develop and implement performance based standards for alternative means of flight data recovery	Block 1	FLTOPSP-FLIREC WG	Mar-18	Not Started	Requires development of MOPS for 'streaming' of flight recorder data
	ADFR.03 - Assess extending applicability to other aircraft operations.	Block 2	FLTOPSP-FLIREC WG	Nov-21	Not Started	Pending completion of ADFR.01

SWIM

	Task	Block	Lead	Due Date	Status	Notes
SWIM	SWIM.01 - Develop GADSS Information Management framework including data formats taking account of information ownership, security and confidentiality.	Block 1	IMP	Mar-18	Not Started	
	SWIM.02 - Develop GADSS Communication framework including analysis of communication needs and constraints of current communication infrastructures.	Block 1	IMP	Mar-18	Not Started	
	SWIM.03 - Identify FF-ICE information elements in support of GADSS (e.g. to associate ADT messages to the aircraft operator).	Block 2	ATMRPP	Mar-20	Not Started	

Repository Services

	Task	Block	Lead	Due Date	Status	Notes
Info repository services	IRS.01 - Set-up GADSS repository (including Point of Contact information and areas of jurisdiction).	Block 0	ICAO	Sep-16	Not Started	

GADSS Procedures

	Task	Block	Lead	Due Date	Status	Notes
GADSS Procedures	PROC.01 - Assess the shortcomings in coordination and information sharing between ANSPs and between Civil/Military in support of emergency and SAR situations.	Block 0	ICAO		Not Started	Circ 330 to be revised.
	PROC.02 - Assessment of the impact of FIR and SRR boundaries (non-coincidental, overlapping and gaps).	Block 0	ICAO		Not Started	Seconded expert from Australia
	PROC.03 - Assessment of compliance to existing Annex 12 standards and development of an action plan.	Block 0	ICAO		Not Started	Seconded expert from Australia
	PROC.04 - Review of Standard Operating Procedures (SOP) for in-flight activation of ELTs.	Block 0	FLTOPSP/INDUSTRY		Not Started	
	PROC.05 - Review of Annex 11 Chapter 5 (emergency phases and time sequence including initial 30 minute period).	Block 0	ICAO		Not Started	Seconded expert from Australia
	PROC.06 - Develop guidance material on initial and recurrent inflight emergency training for ATS units.	Block 0	ICAO		Not Started	
	PROC.07 - Explore ways to enhance SatVoice usability in distress situations (see INMARSAT-C).	Block 0	ATMOPSP		Not Started	
	PROC.08 - Assess current status (inventory) of the world airline fleet's carriage of distress beacons other than fixed ELT's (legacy 121.5 MHz versus 406 MHz beacons).	Block 0	ICAO/COSPAS SARSAT		Not Started	Seconded expert from Australia
	PROC.09 - Raise awareness among airlines of the impact carriage of legacy 121.5 beacons (that are no longer detected by the COSPAS SARSAT system).	Block 0	ICAO/IATA		Not Started	Seconded expert from Australia
	PROC.10 - Assess feasibility of new provisions to require ANSPs to share aircraft position data.	Block 0	ICAO		Not Started	

GADSS Procedures

	Task	Block	Lead	Due Date	Status	Notes
	PROC.11 – Review and assess the coordination responsibilities during the transition of operations from Annex 12 to Annex 13.	Block 0	AIGP		Not Started	First AIGP meeting in Spring 2015
	PROC.12 - Review ATS and SAR procedures to take account of aircraft tracking and Autonomous Distress Tracking.	Block 0	ATMOPSP		Not Started	
OTHER	OTHR.01 - Ensure spectrum protection of frequencies used in the GADSS (e.g. frequency used by space based ADS-B)	Block 0	FSMP		In progress	ITU WRC 2015
	OTHR.02 - Update of the GANP	Block 0	ICAO	Apr-16	In progress	Needs to include 'ASBU' on GADSS
	OTHR.03 - Resolve datalink delivery assurance for downlink messages (ATN baseline 2 deployment)	Block 2	CP-OPLINK		In progress	

Implementation Plan

- **Work in Progress**
- **Convert to ICAO work programme**
 - Secretariat
 - Panels
 - External Organisations

Normal Tracking Implementation Initiative

- **Consistent with the Multidisciplinary Meeting on Global Tracking recommendations**
- **The theater of operations is the ASIA/PAC, however, it's a Global initiative.**
- **The implementation initiative is being conducted in a multi-national context**
 - Led by ICAO with support from States and industry stakeholders
 - NATII Steering Committee Established 5 March 2015
 - Two Sub-groups addressing Airspace and Scenarios
- **The implementation initiative will help establish guidance on best practices in use today.**
- **Australian trial**
- **More details on the NATII in next presentation**

Summary

- **Tragic events brought focus to the issues addressed by GADSS**
 - Not all issues are directly related to the events
- **Initial steps were taken based on:**
 - Extensive work last summer by the ATTF (Normal Tracking) and Adhoc group
 - SARPs
- **GADSS will**
 - Track aircraft everywhere and under all conditions
 - Locate aircraft when in distress
 - Ensure the timely recovery of Flight and Cockpit Voice Data
